EDUCATION

James Madison University

BBA, Computer Information Systems, cum laude

President's List (Fall 2022), Dean's List (Spring 2024, Fall 2025). GPA: 3.54.

May 2026

Harrisonburg, VA

EXPERIENCE

News Outreach Editor

Targeted News Service

June 2026 – Present

Springfield, VA

- Built AI-assisted workflows in Claude Code to triage about 400 auto-generated news items a day across 50+ newsletters, with written playbooks for each process
- Led outreach to reopen content licensing with Dow Jones Factiva, from first contact to a technical evaluation
- Pitch the College Grant Opportunities newsletter to university research and communications offices nationwide

IT Intern

National Association of Home Builders

June 2025 – August 2025

Washington, DC

- Provisioned Dell laptops for new hires using a standardized Windows 11 build checklist, covering BIOS configuration, driver updates, Active Directory groups, printers, VPN, Outlook, and OneDrive sync
- Migrated 3 state building code adoption trackers from spreadsheets to SharePoint lists with lookup columns, and debugged PnP PowerShell scripts for the CSV import
- Audited 200+ internal web links, improving resource accessibility and navigation for staff
- Tested the International Builders' Show 2026 website and its AI chatbot, reporting 15+ errors
- Tagged hundreds of archived documents with metadata using Adobe Acrobat AI Assistant prompts, and demonstrated the workflow to the IT department

Transmission System Operations Aide

Fairfax Water

June 2024 – August 2024

Fairfax, VA

- Executed preventive maintenance tasks including valve exercising to ensure reliable operations during peak demand
- Supported Transmission Technicians in investigating and resolving customer inquiries and complaints

News Data Analyst

Targeted News Service

June 2021 – August 2023

Springfield, VA

- Collected and analyzed external data from 5,000+ local and federal government websites for commercial use

PROJECTS

Quick Hit Timebank System

Google Apps Script, Google Sheets, AppSheet

Spring 2026

- Served as lead developer for a time banking platform for the Alachua Community Collective, implementing transaction logic, admin reporting, and a Python data migration script; team won the KPMG Choice Award for Best Overall System

BRHS Cybersecurity Risk Assessment

NIST CSF 2.0, Vulnerability Analysis

Spring 2026

- Co-authored a consulting report for a fictional healthcare organization, conducting vulnerability analysis and system hardening recommendations using the NIST Cybersecurity Framework and CIS Controls v8
