EDUCATION

James Madison University

BBA, Computer Information Systems. President's List (Fall 2022), Dean's List (Spring 2024, Fall 2025). GPA: 3.540.

Harrisonburg, VA

May 2026

EXPERIENCE

News Outreach Editor

Targeted News Service

June 2026 – Present

Springfield, VA

- Lead media outreach for the College Grant Opportunities newsletter, identifying and pitching institutional contacts at university research divisions nationwide
- Developed a tiered outreach workflow, prioritizing grants and communications staff to improve response and pickup rates
- Draft and refine pitch and follow-up correspondence tailored to university press releases and each institution's audience

IT Intern

National Association of Home Builders

June 2025 – August 2025

Washington, D.C.

- Configured and imaged new computers with company-approved settings and applications
- Migrated 3 legacy Excel forms to SharePoint, architecting custom lists to enhance data integrity
- Audited 200+ internal web links, improving resource accessibility and navigation for staff
- Engineered AI prompts to generate metadata for archived documents, boosting searchability

Transmission System Operations Aide

Fairfax Water

June 2024 – August 2024

Fairfax, VA

- Executed preventive maintenance tasks including valve exercising to ensure reliable operations during peak demand
- Supported Transmission Technicians in investigating and resolving customer inquiries and complaints

News Data Analyst

Targeted News Service

June 2021 – August 2023

Springfield, VA

- Collected and analyzed external data from 5,000+ local and federal government websites for commercial use

PROJECTS

Quick Hit Timebank System

Google Apps Script, AppSheet

Spring 2026

- Served as lead developer for a time banking platform for the Alachua Community Collective, implementing transaction logic, admin reporting, and a Python data migration script

BRHS Cybersecurity Risk Assessment

NIST CSF, Vulnerability Analysis

Spring 2026

- Co-authored a consulting report for a fictional healthcare organization, conducting vulnerability analysis and system hardening recommendations using the NIST Cybersecurity Framework and CIS Controls v8

Capsim Business Simulation

Strategic Management

Spring 2026

- Applied a niche differentiation strategy targeting high-tech market segments across multiple simulated rounds, managing pricing, R&D, marketing, and production decisions
